

TO GO

1. In what ways does our culture promote quick speech and unbridled anger?
2. What are your “tells” that indicate when you’re about to say or do something rash?
3. Search the scriptures for other examples of the power of words and the danger of an uncontrolled tongue.
4. Give some practical distinctions between *reading* the Bible and *consuming* the Bible. Is there a specific way you’re challenged to go deeper in your time in the Word?
5. James 1:25 tells us we’ll be “blessed” by following God’s ways, rather than the world’s ways. Give some examples of how culture tempts us to sin, but how following God’s ways are ultimately better for us.
6. How does our care for the needy reflect the Gospel? What is one practical way you could grow in this area?
